Description

TimeClock purchase includes free programming, 2 Ribbons, and 1000 Timecards.

Discover fast accurate payroll preparation with the MJR 7000 Time Recorder Series computerized time recorder. The MJR-7000 employee timeclock automatically calculates hours worked, and separates overtime hours taking the "guess work" out of payroll processing.

Programmable time recorder automatically calculates employee hours through consistent application of payroll policies. For up to 100 employees.

Benefits of the Amano MJR-7000

- ✔ Replaces time sheets and clock with computerized time calculating terminal.
- ✔ Controls employee time theft.

- ✔ Eliminates costly calculation errors.
- ✔ Accommodates a wide variety of payroll calculation rules.
