- Network
- Baud Rate: 300 to 28.8 Kbps.

Description

What does the Software Package include?

- ✓ AMG Employee Management Systems License for 50 Employees, 2 Users (Expandable).
- ✓ 1 Break Complaint HandPunch 1000E XL.
- ✓ Ethernet TCP/IP
- Power Transformer.
- Wall Mount.
- Hardware Manual.
- One-Year Warranty.

<u>Annual Maintenance Agreements</u> available for the HandPunch 1000E XL AMG Employee Attendance Software Package.

About AMG Time Management Attendance System

AMG Attendance System is a user-friendly, flexible and full featured employee management tool which allows controlling your employees' attendance by automating timekeeping and attendance tracking. It captures data from electronic data terminals such as Badge Readers, Fingerprint Readers, Biometric Hand Readers which includes the HandPunch 1000E XL and simultaneously allows optional PC entry. Based on those IN and OUT punches polled from the device, it automatically calculates employees' working time and wages. Paired with the Schlage Biometric Break Compliant HandPunch 1000E XL, the new attendance system will help employers comply with labor "break" and "meal" laws.

AMG Employee Management Attendance System can help you by:

- Reducing time needed to verify attendance data
- ✓ Reducing payroll processing time and cost
- Eliminating mistakes in calculating worked hours and wages
- Eliminating unauthorized overtime
- Automatically generating and emailing reports and payroll exports.

What are the Benefits for your Business?

- Better control of labor force
- Improved work productivity
- Better control over cost distribution
- Efficient use of human and financial resources

The HandPunch 1000E XL has a maximum capacity of 100 Employees, it can not be expanded.

HandPunch 1000E XL

Break Compliant HandPunch Line

Schlage is pleased to announce a new line of readers, the HandPunch 1000E XL is now capable of complying with labor "break" laws that have been adopted by more than 20 states. These labor laws are in place to regulate on-the-job meals and breaks for employees. When integrated with the AMG Employee Attendance Software, the Schlage HandPunch 1000E XL "Break Compliance" capability will make it possible for employers to comply with laws relating to meals and breaks, avoiding potential fines and lawsuits. To ensure each employee takes a full 30 minutes of lunch or 10 minutes of break periods the Break compliant HandPunch 1000E XL will reject the employee from clocking back to work before the full duration has expired.

When You Want To Cut Time and Attendance Costs...Do It By Hand

Schlage Biometrics brings the accuracy and convenience of biometric technology easily within reach of any time and attendance application with the HandPunch 1000E XL. In operations that range from coal mines to clean rooms, the Schlage HandPunch 1000E XL has proven itself to be a practical and precise solution for employee time management and access control.

Our Biometric Time Clock, Hand Scanner, Works by Identifying Employees' Hand Geometry Instantly

Schlage HandPunch 1000E XL identifies the employee by the unique size and shape of their hand. This means your employees will no longer need to carry cards or keys. The costs and risks associated with credentials that can be lost, stolen or duplicated without authorization is also eliminated. Schlage HandPunch 1000E XL Recognition Systems also eliminates time fraud by making it virtually impossible to "buddy punch." The result is more accuracy, productivity and profitability for your company.

Your Hand Is Your Card

With the HandPunch 1000E XL there are no cards to create, administer, carry – or lose. For mid-size companies, the HandPunch 1000E XL provides a high return on investment by eliminating the cost associated with administering and managing cards. For companies that have single or multiple locations and face the daily occurrence of buddy punching, the Schlage HandPunch 1000E XL will eliminate employee time theft instantly.

Affordable Ethernet Solution

The Schlage HandPunch 1000E XL comes standard with a Ethernet TCP/IP connection allowing for quick integration into your time management systems, applications and existing network infrastructure.

Hand Geometry Technology

The HandPunch 1000E XL uses Schlage's field-proven hand geometry biometric technology. The HandPunch 1000E XL captures an image of the hand each time the employee punches. The hand's size and the shape are used to verify their identity with unparalleled accuracy. No finger or palm prints are taken. The technology works well indoor as well as in harsh environments.

Antimicrobial Protection

Every HandPunch 1000E XL biometric hand reader contains a silver-based anti-microbial agent-which is embedded into the materials used to produce the platen, providing a finish that inhibits the growth of a broad spectrum of bacteria, mold, and fungi and remains active for the life of the HandPunch 1000E XL.

Hand Outline

The HandPunch 1000E XL comes standard with a blue hand outline printed on the platen. This hand outline helps new users place their hand accurately on the platen thus decreasing initial enrollment

time and better enrollment quality. It also includes the Ingersoll Rand Schlage Biometrics logo.
