AMG Software Module No Lunch

Description

This module provides you with 3 additional features related to lunch time management.

1. No Lunch: allows viewing in a separate window or generate report of employees who have missed lunch. Optionally, you can provide bonus hours for each missed lunch.
2. Short Lunch: allows viewing in a separate report employees who have taken lunch for a period shorter than scheduled. In this case, you can optionally provide bonus hours for each short lunch.
3. Late Lunch: allows activating alarm for displaying in a separate window those employees who at the current moment should have already taken lunch, but haven't actually taken yet.
